## *A Guide to Identifying Your Strengths and Weaknesses*

The following Self Analysis Quiz is designed to help you measure your strengths and weaknesses. I urge you to answer these questions with an open mind. After you've answered these questions, I urge you to carefully examine your answers; perhaps you may want to ask your boss for advice on evaluating these questions and your answers. If you feel some of these questions reveal your weaknesses; that's okay, we all have weaknesses from time to time; the most important goal of this quiz is to expand on your strengths and learn from your weaknesses while making adjustments as you grow.

I urge you to review this self-evaluation quiz from time to time; strive for self-improvement and self-management everyday; always work hard to improve on yesterday. Learn something new everyday. It will be another step on the road to your own success and happiness. I urge you to set high standards of excellence. The higher your standards, the higher your rewards. Good is not enough anymore in today's competitive market. If you follow this quiz with an open mind, make the necessary adjustments, and move on, I promise you will reach your goals and become the happy, successful person you were meant to be.

Let this quiz serve as an educational road map that will help you grow, establish strong work habits and create positive attitudes. Yes, you will have peaks and valleys during your career; everybody goes through this process from time to time (it's called paying your dues); learn from your mistakes; persevere and keep learning...you will move forward.
